Cumulative Index

Need to find something published in Textile Chemist and Colorist during calendar 1989? This index can help you find it quickly either by author or by subject matter.

For example, if you know that the article you are looking for was written by Lindemann, a check of the index of authors shows that Martin K. Lindemann is the author of title 6. The index of titles, in turn, identifies title 6 as Vinyl Acetate and the Textile Industry, and shows that it was published in the January issue (1) beginning on page 21.

If you don't know who wrote the article, you can locate it by using the key term index. You know, for example, that the article is about *vinyl acetate* and that it covers *emulsion polymerization, poly(vinyl acetate), poly(vinyl alcohol), poly(vinyl chloroacetate), sizing, vinyl alcohol, vinyl esters* and *warp sizing*. Finding any of those terms in the key term index will give you the title numbers of all articles published thus far this year pertaining to those terms.

Copies of individual articles—whether in the form of reprints, tearsheets or photocopies—are available at $3 each (prepaid U.S. funds net; surface postage) from AATCC, P. O. Box 12215, Research Triangle Park, N. C. USA; telephone 919/549-8141; Fax 919/549-8933.

The magazine is also available on microfilm from University Microfilms, Ann Arbor, Mich. 48106. In addition, the magazine is abstracted by Chemical Abstracts, Engineering Index, Textile Technology Digest, Titus (Institut Textil de France) and World Textile Abstracts.

Key Term Index

The number(s) to the right of each entry refer to the number(s) assigned to the titles listed in the index of titles.

Index of Titles

The numbers to the right of each entry provide the issue and page number for that title. Title 6, for example, was published 1/21 (1 = January issue; 21 = the page number in the January issue).

(1) AATCC Research Committee Activity: November 1988 ..... 1/8

(2) Sidney M. Edelstein Receives Leonardo da Vinci Medal 1/14

(3) AATCC Committees To Hold Winter Meetings February 14-16 at the University Hilton in Charlotte 1/15

(4) Awards: A Call for Nominations. Nominations Sought for The Olney Medal, The Harold C. Chapin Award and The Henry E. Millson Award for Invention for 1989 ..... 1/16

(5) George J. Mandikos Elected President of AATCC. Five regional vice-presidents also elected for 1989 ..... 1/19

(6) Olney Medal Address: Vinyl Acetate and the Textile Industry. By Martin K. Lindemann, 1988 Medalist 1/21

(7) The Use of Pyrolysis-Gas Chromatography in Textiles as an Identification Method. By Ian R. Hardin and Xiao Quan Wang, Auburn University .. 1/29

(8) BSI Issues New Standard Covering the Calculation of Small Color Differences. By Keith McLaren, Consultant in Color, Science and Technology ... 1/33

(9) A Review of New Products for the Dyehouse and the Lab 1/34

(10) Awards: A Call for Nominations. Nominations Sought for The Olney Medal, The Harold C. Chapin Award and The Henry E. Millson Award for Invention for 1989 2-10

(11) Ester Crosslinks: A Route to High Performance Nonformaldehyde Finishing of Cotton. By Clark M. Welch and B. A. Kottes Andrews, Southern Regional Research Center, U.S. Department of Agriculture 2-13

(12) Nylon 6 and Nylon 66: How Different Are They? By Ronald A. F. Moore, Allied-Signal Inc. 2-19

(13) Errors in Colorimetry Caused by the Measuring Instrument. By Joanne C. Zwinkels, National Research Council of Canada 2-23

(14) AATCC Council Highlights: November 1988 2-29

(15) Test Methods for the Quality Assurance of Dyes: Testing the Dispersion Behavior and Dispersion Properties of Textile Dyes. By Thomas Van Chambers, Hoechst Celanese Corp.; Uwe Kosubek, Cassella AG; Markus Krayer, Ciba-Geigy AG; Rudolf Kropf, Sandoz AG; A. T. Leaver, ICI plc; Jurgen Varwig, BASF AG; Karl-Christian von Puttkamer, Bayer AG 2-30

(16) Measuring the Solubility of Disperse Dyes. By George L. Baughman, U.S. Environmental Protection Agency, and Theresa A. Perenich, University of Georgia 2-33

(17) Dyeing Polypropylene with Anthraquinone Derivative Disperse Dye. The University of Tennessee at Knoxville won AATCC's 1988 Student Paper Competition 2-38

(18) Crock Test Problems Can Be Prevented. By James P. Patton Jr., Cone Mills Corp. 3-13

(19) Testing for Crocking: Some Problems and Pitfalls. By Allan E. Gore, C. H. Masland & Sons 3-17

(20) New Finishing Possibilities for Producing Dyeable, Smooth Drying Cotton. By Eugene J. Blanchard and Robert M. Reinhardt, Southern Regional Research Center, U.S. Department of Agriculture 3-19

(21) The Role of Javelle Water in the History of Chlorine Bleaching. By Herbert T. Pratt 3-23

(22) Awards: A Call for Nominations. Nominations Sought for The Olney Medal, The Harold C. Chapin Award and The Henry E. Millson Award for Invention for 1989 3-30

(23) 1989 Roster of AATCC Section Officers . 4-6

(24) AATCC Research and Administrative Committees To Meet May 9-11 at the AATCC Technical Center 4-8

(25) *Letters:* Errors in Colorimetry. By E. I. Stearns. Response by Joanne C. Zwinkels 4-9

(26) Jet Dyebath Reuse in the Coloration of Polyester Knits. By Fred L. Cook, Rachel M. Moore and Grace S. Green, Georgia Institute of Technology 4-11

(27) Chemical Analysis of Yellowing of Stain Resist Finishes for Carpets. By South Central Section, AATCC 4-21

(28) Analysis of Some Azo and Anthraquinone Dyes. By Harold S. Freeman, Jolanta Sokolowska-Gajda and Zhimin Hao, North Carolina State University 4-24

(29) The Application of Quality Control and Automation in Reducing the Real Cost of the Dyeing

MINOLTA. THE MEASURE OF EXCELLENCE.

NO BOLTS OUT OF THE BLUE.

Delivering royal blue when the order calls for navy—is enough to sink a business. The Minolta CR-210 saves you from such disasters.

This state-of-the-art Chroma Meter not only prints out detailed color readings, it displays them on an LCD panel. It's portable, runs on AC or battery and includes features such as an audible alarm that warns you if a color goes outside the acceptable range.

The CR-210 guarantees the color you want, bolt after bolt. No surprises.

The CR-210 is just one of Minolta's full line of light and color measurement instruments. For more information, including our 21-page, full-page booklet "Precise Color Communications", please call (201) 825-4000 or write: Minolta Corporation Industrial Meter Division, 101 Williams Drive, Ramsey, NJ 07446.

(33) AATCC Council Highlights: February 1989 ..... 5/11
(34) Properties of Knits Containing Crosslinked Polyethylene Glycols. By Tyrone L. Vigo and Joseph S. Bruno, Southern Regional Research Center, U.S. Department of Agriculture 5/13
(35) Low Temperature Bleaching of Cotton with Peracetic Acid. By James W. Rucker, North Carolina State University 5/19
(36) Analyzing Carpet Samples for Formaldehyde Content. Part 1 by Waynce C. Tincher, Alisha B. Shepherd and Denis L. Statham, Georgia Institute of Technology. Part 2 by J. W. Mader, Certified Testing Laboratories, and C. R. Mitchell, Shaw Industries 5/27
(37) AATCC Test Method 110-1989: Whiteness of Textiles. New test incorporates internationally accepted CIE whiteness formula 5/33
(38) Optimization of the AATCC Sealed Jar and HPLC Methods for Measurement of Low Levels of Formaldehyde. By Dilip M. Pasad and Cynthia L. Cochran, University of Georgia; and B. A. K. Andrews, Southern Regional Research Center, U.S. Department of Agriculture 6-13
(39) The Influence of Polymeric Electrolyte on Flow of Water and Particulate Dye in Textile Capillary Assemblies. By J. N. Etters, University of Georgia 6-23
(40) Ink Jet Systems for Dyeing and Printing of Textiles. By L. A. Graham, Lou Graham & Associates 6-27
(41) Equations Representing Diffusion Controlled Rate of Dyeing Curves: A Retrospective and Further Approximations. By Arthur Urbanik, Dan River Inc. 6-33

PRODUCT MANAGER

Mobay Corporation has an opening for a Product Manager located at our headquarters in Pittsburgh, PA. Responsibilities include R&D liaison, sales, profitability, and customer service for an extensive range of products.

We are looking for an energetic, creative individual with good leadership and communications skills. The candidate must have a B.S. in Textile Chemistry or equivalent and a minimum of 5 years experience in marketing dyes and chemicals to the textile industry.

This position provides an excellent compensation and benefits package. Interested candidates should forward their resume, with salary requirements to:

Department ALH
MOBAY CORPORATION
Mobay Road
Pittsburgh, PA 15205-9741

A Bayer USA INC. COMPANY

Bayer

An Equal Opportunity Employer M/F/H/V

(42) Science, Research, Education: Critical Elements for Industrial Growth. By Ludwig Rebenfeld, Textile Research Institute 8-7
(43) *Short Communication:* Consumer Awareness and Healthcare Concerns Promote Interest in Antimicrobial-Treated Carpets. By Russel Baker, Chartwell International Ltd. 8-10
(44) Applications of Infrared Microscopy to Textile Samples. By David L. Grieble and Sharon A. Gardner, Air Products and Chemicals Inc. 8-11
(45) Technical Program for AATCC's 1989 International Conference & Exhibition Will Feature 63 Speakers 8-14
(46) Chemical Surface Analysis of Weathered Cotton. By Darrell Donaldson, Southern Regional Research Center, U.S. Department of Agriculture 8-17
(47) Package Dyeing Updated. By G. Robert Turner, Consulting Editor 8-23
(48) AATCC Council Highlights: May 1989 8-26
(49) AATCC Research Committee Activity: May 1989 8-28
(50) *Letters:* Tristimulus Calculation with an Imaginary Metamer. By E. I. Stearns, Consultant 8-37
